

Accessing your organization's settings

The organization account settings page provides several ways to manage the account, such as billing, team membership, and repository settings.

Tip: Only organization owners and billing managers can see and change the billing information and account settings for an organization. For more information, see "[Permission levels for an organization](#)."

In the top right corner of GitHub, click your profile photo, then click **Your profile**.

On the left side of your profile page, under "Organizations", click the icon for your organization.
